South Coast Regional Report

- Process
- New content
- Where are we now?

Process

- New outline
- Gather data
- Regional Reports compared and revised for consistency

SOUTH COAST REGIONAL FORUM ON SEPTEMBER 30, 2013

- 1. Outline
- 2. Prior Bulletin
- 3. Population
- 4. Land and Water Use Data
- 5. Water supplies
- 6. Water Demands

- 7. Environmental water
- 8. Water budgets
- 9. Draft report
- 10. Contributions from outside entities
- 11. Revised Draft report

OUTSIDE ENTITIES THAT MADE CONTRIBUTIONS TO THE SOUTH COAST REGIONAL REPORT INCLUDE

Entity	Names	Contributions
Santa Ana Watershed Project Authority	Celeste Cantu Mark Norton	Provided text and reviewed draft report
MWD of Southern California	Grace Chan	Reviewed draft report
City of Los Angeles DWP	David Pettijohn Simon Hsu Jevon Lam	Provided text data and reviewed draft report
Ventura County	Lynn Rodriguez	Provided text
Rancho California Water District	Denise Landstedt	Provided text
San Diego County Water Authority	Mark Stadler Dana Friehauf	Provided text and reviewed draft report
Colorado River Board of California	Tanya Trujillo Chris Harris Jay Chen	Provided text and reviewed draft report
Los Angeles Regional Water Quality Control Board	Shirley Birosek	Provided text
Castaic Lake Water Agency	Lauren Everett	Water Supply and watershed information IRWM information

AREAS OF WORK PROVIDED BY DWR FOR THE SOUTH COAST REGIONAL REPORT

Geologists	Groundwater Information	
Environmental Scien	tists Climate change information	
	Tribal information	
	Other environmental information	
	Land use and water conservation information	
Engineers	Project Management, water balances, flood information text	
Demographers	Provide population and other demographic information	
Water Quality Specia	alists Water Quality text, charts and tables	
IRWM People	Reports and text	
Modelers	Future scenarios	
Economists	Economic Forecasts	
Publications	Review and edit report	

Changes to the Regional Report Outline

2013
Hydrologic Region
Summary
Current State of the Region
Setting
Watersheds
Groundwater Aquifers
Ecosystems
